SALA EL-JADIDA, RABAT, Morocco

PROFESSIONAL SUMMARY

A highly motivated and skilled individual with a diploma in Operating Systems and Networking. Possessing a strong technical background in network administration, troubleshooting, and maintenance, with hands-on experience in configuring and managing complex network environments. Proficient in operating system concepts, installation, configuration, and support. Skilled in designing and implementing secure and scalable network infrastructures, and ensuring high availability and performance. A quick learner with excellent problem-solving skills, able to work independently or as part of a team to meet project goals and deliverables. Seeking to leverage my skills and expertise in a challenging role in the IT industry.

WORK EXPERIENCE

AUXILIARY AGENT
